

Tuesday 27th February 2022

4.30 – 6.30 pm Aula Rostagni

THE FUTURE IS IN START-UPPERS' HANDS! READY TO FOUND YOUR OWN START-UP?

**Aimed at all students of the
Department of Physics and Astronomy**

*Meet internationally **successful Physics start-uppers**
that will introduce you to the **skills required** to become
one, sharing their own experiences and much more!*

Speakers:

- Davide Iannuzzi, PhD, MBA, Chief Impact Officer – Full Professor of Physics, Vrije Universiteit Amsterdam
- Luca Stevanato, PhD, CEO Finapp srl, <https://www.finapptech.com/>
- Paolo Scopece, PhD, CEO Nadir srl, <https://nadir-tech.it/>

Moderator: Giulia Bonomini, PhD, Department of Physics and Astronomy

Programme:

- **WHY** – The motivation: examples of start-up grown by master students.
- **WHAT** – The idea, which one is the good one?
- **HOW** – Starting from scratch, opportunities and risks.
- **EXAMPLES** – Finapp and Nadir stories
- **PANEL DISCUSSION** – Question and answer time
- **SPRITZ Time** – Opportunity for informal conversation with speakers

***Davide Iannuzzi** got his master degree in Physics at DFA. After a period of research in the USA and being awarded both ERC Starting and Consolidator grants, he reached the positions of Professor in Experimental Physics and Chief Impact Officer at Vrije Universiteit Amsterdam and he is Founder and Director of Demonstrator Lab. He founded and owned in 2012 Sixpointsix and co-founded in 2011 Optics11, a fiber optic sensing solutions company.*
